Trainee, *Andela* —— 11/2023

Administrative assistant, *Dtec company* —— 01/2021 – 03/2022
kigali, Rwanda

Languages

English	French	Kinyarwanda
excellent	Very good (delf b2)	Native

Awards

Peace and love proclaimers member, *plp*

Croix rouge member, *croix rouge*

Projects

Utora voting system   12/2023 – present

Utora voting system is an e-voting system that I worked on with my collegue, We
wanted to create an innovative voting system that could replace the the old voting
system that currently in use at the university.
I mainly worked on the frontend with the use of javascript and in the backend we
used php laravel . In the future we want to create an embedded system for our
system so it could be more effective.

Street canvas   10/2023 – 01/2024

Street canvas is a mobile app that i created with 2 of my colleagues to make a
mobile app that would help street children get the help they need from the society
and make it easy for people to donate.
we built the app using React native and node.js
In the creation of Street canvas I have acquired additional skills in sqlite and React.
